

The Blueprint for Good Growth will ensure the Treasure Valley remains a vibrant and desirable place to live and work. Beyond setting a vision for a future Ada County, the project will create the specific ordinances and policy changes needed to turn planning goals into results on the ground.

A project this big in scope requires funding – and that’s where your organization can play a major role in shaping the future. The total Blueprint budget is \$815,000, which is being divided into two phases. Ada County, the Ada County Highway District, the Idaho Transportation Department and the cities of Boise, Eagle, Garden City, Kuna, Meridian and Star are tackling Phase One, the \$465,000 planning effort.

Phase Two, the critical implementation piece, is currently unfunded.

Please pledge your support for maintaining the great quality of life we enjoy in the Treasure Valley. The investment in the future will be good for children, good for employees and good for business.

Your Support is Critical
